A file
Read the bytes
into one buffer.
Walk frame starts in one thread,
using the counts in each header.
Parse each frame,
and return the frames in file order.
One decimal
No exponent, at most 19 digits,
mantissa at most 2^53, power of ten in -22..22
yes
Clinger
integer / 10^|e|
no
fast_float2
Eisel-Lemire
Nearest binary64, ties to even.
Reject a non-finite value.
